---

## **OBJECTIVE**

I am a motivated and adaptable individual with a passion for learning and a strong desire to make a meaningful impact. As a fresher eager to contribute to real-world projects and enhance technical skills in a dynamic organization. I am excited to bring my skills, fresh perspective, and dedication to excellence to contribute to your team's success.

## **PROJECTS**

---

### **• Personal Portfolio**

Designed and developed a responsive personal portfolio website to showcase my skills, projects, education, and contact information. Implemented modern UI design using **HTML, CSS, and JavaScript** with smooth animations and interactive sections. The website includes Home, About, Skills, Projects, and Contact sections, providing a professional online presence and improved user engagement.

### **• Gym Management System**

Developed a web-based Gym Management System to automate and manage gym operations such as member registration, attendance tracking, workout plans, trainer management, and payment subscriptions. The system improves efficiency by reducing manual work and ensuring accurate record management using a user-friendly interface using **Java** for backend, **HTML, CSS, and JavaScript** for frontend, and **MySQL/SQLite** for database management.

### **• The Divine Dwar - Web Based Tourist Guide**

Developed a web-based tourist guide application for **Shree Tuljabhavani Temple, Tuljapur** to assist pilgrims and tourists with complete travel information. The website provides details about temple history, darshan timings, nearby tourist places, accommodations, and travel guidance through a user-friendly and responsive interface using **Java** for backend, **HTML, CSS, and JavaScript** for frontend, and **MySQL/SQLite** for database management.

## TECHNICAL SKILLS

# Html, Css, JavaScript

## Java (core java and Basics of Advance java)

MySQL , SQLite

Git/Git Hub
